Phil:

Would you mind developing a better draft of objectives and a draft agenda? Thanks.

Jeff

There will be a meeting of the Bristol Bay Assessment Mining Scenario Development team in Washington, DC on September 20-21. Your expertise and participation in this meeting is needed to help the Bristol Bay Assessment team address comments provided by the peer review panel and members of the public. Our objective will to revise the fine-tune the existing mining scenario for the Bristol Bay Assessment, and to develop alternate scenarios to guide our risk assessment.

The meeting will be held at EPA's office in Arlington, VA (the Potomac Yard North Building). Additional logistics and a working agenda for this meeting will be provided in a few days. However, we ask that you plan on a full working day on Thursday September 20 and working to about 3:00 on Friday, September 21.

Please RSVP to me as soon as possible. My understanding is that Steve H., Phil, Kate, Glenn, Ralph, are all available for the two days. I understand that Steve S. is available on Thursday only and that Barb is available only on Friday. [Barb - I'm making video conference arrangements to link you in on Friday.] Also, let me know should you think we should include others in our discussion.

Thanks all for making a difference.

Jeff
